(a)

- labelled fields for email, date, number of nights, type, number of people
- validation of number of nights and people in party. Email being required
- drop down or option buttons for holiday type
- submit button

4

The screenshot shows a web form for booking a holiday. It contains the following fields and controls:

- Email:** A text input field.
- Departure date:** A date input field with slashes (/ /) and a calendar icon.
- Number of nights:** A numeric input field with the value '3' and up/down arrow buttons.
- Holiday Type:** A dropdown menu with 'self-catering' selected. The dropdown list is open, showing 'bed and breakfast' and 'all inclusive' as options.
- Number in party:** A numeric input field with the value '3' and up/down arrow buttons.
- Submit:** A button labeled 'Submit'.

Accept all fields being required.
