

11. A laundry company uses a relational database to manage customer orders.

The database has the following tables.

Customer	Order	Item	OrderItem
<u>customerID</u>	<u>orderID</u>	<u>itemID</u>	<u>orderItemID</u>
forename	customerID*	itemName	orderID*
surname	orderDate	description	itemID*
address	deliveryDate	price	quantity
phone	status		
accountBalance	totalAmount		

Draw an entity-relationship diagram to show the relationships that exist in this database.

Your answer should show the entity names and cardinality.

Attributes are not required on the diagram.
