**18.** An athletics club would like a new web page to allow them to celebrate the success of their members from recent events.

They would like the web page to display the following content:

- a paragraph with information about the event
- an image of the club members at the event with a paragraph about the results under the image
- a hyperlink to the home page
- the club's logo at the top of the page.

Complete the wireframe below to design the web page. **3**
