| | (b) | | • conditional loop
• correct loop condition always valid for password length = 5
• input assigned inside the loop
• error message inside the loop | **4** | Where candidate uses a post conditional loop the error message must be contained within a correct if statement.

Where candidate does not use a loop, one mark may be awarded for the error message where attached conditions are correct.

If the loop is missing the start/end of the loop assume that everything above or below the start/end is inside the loop. |
