| | (c) | | One mark each for
• loop 5 times
• input of job assigned within loop
• running total within loop
• correct use of array | **4** | Number of loop iterations declared may vary according to language, eg 0 to 5, 1 to 5, 0 to 4, 1 to 6

To avoid double penalising, along with bullet point two, award mark for correct use of an array once in the answer. |
