	(d)		One mark for the following code:	**3**	Accept programming language specific versions of random.

			• random
			• correct parameters
			• random number used as `winners` array index
					Example SQARL answers:
					
					`SEND winners[RANDOM(0,2)] TO DISPLAY`
					
					or
					
					`index = RANDOM(0,2)`
					`SEND winners[index] TO DISPLAY`
