2. The following code is used to input and display the points in a game.

```
...
Line 5   RECEIVE teamName FROM KEYBOARD
Line 6   RECEIVE totalPoints FROM KEYBOARD
Line 7   <display output>
...
```

When 'Scotland' and '27' are input the following output is produced by the program.

```
Scotland scored 27 points
```

Using a programming language of your choice write Line 7 of the program.
