10. A TV network uses a relational database to store data about its TV programmes. One of the tables is shown below.

Programme			
title	year	genre	duration
Dr Whitlet	2019	Sci-Fi	45
Game of Action	2020	Drama	30
My Life	2023	Romance	50
Island Life	2024	Drama	50
Red Mirror	2024	Drama	45
Real Love	2023	Romance	40
Kim	2021	Romance	60
The Dark Sky	2023	Sci-Fi	90

Complete the table below showing the expected output from the following SQL statement.

```
SELECT year, genre, MIN(duration) AS 'Shortest time'
FROM Programme
WHERE year > 2021
GROUP BY year, genre;
```

2

year	genre	Shortest time
2023	Romance	40
2024	Drama	45
2023	Sci-Fi	90
