| 18. | | | One mark for any one from:
• ensures consistency across the website
• all connected pages are changed when edits are made to the CSS
• reduces time required to style multiple pages as CSS only needs to be written once
• improves the readability of HTML/CSS/code (to another coder/screenreader) | 1 | Looking for a description of a benefit, not just a fact. Do not accept 'consistency' on its own. |
