12. A database table stores the following data.

Result			
forename	surname	test1	test2
Julie	White	7	92
Aaima	Waheed	34	67
Chun	Yang	27	52
Olivia	Arran	58	98
Mia	Branan	78	90
Claire	McKay	10	7
Scott	Harper	42	47

(a) The following SQL statement is implemented in the database.

```
SELECT forename, surname
FROM Result
WHERE test1 < 10 OR test2 > 90;
```

Write the expected output from the SQL statement. **3**

(b) Describe how the above SQL statement could be tested. **1**
